POCKET GUIDE TO GENDER

3. GOOD HEALTH AND WELL-BEING
5. GENDER EQUALITY

= SMART

global health

WGH

WOMEN IN GLOBAL HEALTH
WHAT CAN I DO?

- Bring up gender issues and concerns in meetings
- Participate in and support mentoring schemes
- Collect and use sex-disaggregated data which is then analysed and interpreted through a gender lens
- Equally value the contributions of all your colleagues, support their ideas and give them credit when due
- Challenge and disprove negative stereotypes of women in the workplace
- Have an open mind, ask questions and educate yourself on gender issues
