I AM WORKING IN GLOBAL HEALTH

POCKET GUIDE TO GENDER

3 Good Health and Well-being + 5 Gender Equality = SMART global health
WHAT CAN I DO?

- Develop networks and create space for women to connect with other women in the same area of expertise - locally, nationally and internationally
- Set up or support existing mentoring schemes
- Refuse to participate in panel discussions or recruitment panels without any women
- Have an open mind, ask questions and educate yourself on gender issues
- Apply a gender lens to your work -- understanding that gender is a determinant of health
